

Connect to the Campus Wifi

Merced College has a new wireless network named ***mccd-wifi***

Available at Merced Main Campus, Los Banos Campus & Business Resource Center

Here's what you need to know:

1. Connect to “***mccd-wifi***” on your mobile device
2. Enter your student/staff username and password to login
3. You're all set!

For help & more information, visit www.mccd.edu/wifi

More details about our new wireless network:

This network is specifically designed for our students, staff, and guests to use with their personal mobile devices and will eventually replace the “mccd-open” network. We expect the new wireless network to be more compatible with the variety of mobile devices currently on the market.

The old “mccd-open” will continue to be available for a period of time, allowing everyone to transition to the new wireless network.

The “***mccd-wifi***” network provides access to the Internet and the publically accessible, electronic resources of Merced College. This enhancement has not changed the existing wireless coverage area, however the district is working on plans to increase the overall wireless footprint. Additionally, bandwidth resources for this network are actively throttled to ensure there will be abundant available resources for instructional and business functions.
